

I'm a retired Civil Servant and lifelong Grecian having left Exeter in 1966, I still attend almost every home/away fixture.

I joined the London Grecians in 1992, became travel organiser 1996, and have run GrecianNet since 2000.

In 2000 I was part of the initial group which evolved into the Exeter City Transfer Trust. I was one of three who drafted the first constitution.

I was a co-opted trustee representing Exiled members, later elected. I have twice completed the continuous nine years allowed and left the Board for the compulsory year before getting re-elected and now seek re-election for the final three years.

I completed a review/update of our constitution in 2009 and am again currently reviewing them, coordinating with the Football Supporters Association. I perform ongoing roles running/organising Director for a Day, and high-profile match-ticket Draws. I continue to serve on the Ownership and Membership Working Group.

I am one of the volunteer staff on matchdays running the FECRACE bar.

I act as Election-Management-Group-Chair and Nominating/Returning Officer for numerous other Trusts. I'm on the National Council of the Football Supporters Association and am on three of their networks (Community-Owned, Leagues 1&2, and National Game) representing ECFCST and am also Secretary/Travel Secretary for the Association of Provincial Football Supporters Clubs In London.

Being involved in the formation of our Trust and the takeover of ECFC I pass on my experience, offering help/advice wherever needed internally/externally.

My professional career and current responsibilities mean I have accumulated debating/influencing/analytical skills which are suited to the requirements of a Trustee.

I'm passionate about the success of ECFC as a Trust-owned club, being at the heart of the community. I invite you to vote for me to continue working towards getting our Trust/Club to the highest level possible whilst continuing to ensure we achieve it in a sustainable way, holding true to the concept of supporter involvement in governance/ownership.

With my experience and wider involvement in football I feel I have made a significant contribution to ECFCST and hope to continue to do so. I live in London so attending Board Meetings is a long journey and I would need to claim a contribution of 50% of journey costs, if elected, but can also attend electronically when necessary.

We should all continue to support the Trust and thus the Club as the more supporters involved, the more successful we can be.

Cheers, NLeM
