Trustee Update

It's been a really busy and enjoyable year for me as a Trustee, with lots of opportunities to get involved and hopefully make a positive difference for supporters.

A big part of my involvement has been through the **Community Working Group**, which I've been a member of throughout the year and have recently taken on the lead for. I'm really looking forward to building on the work the group has already been doing and looking at more ways the Trust can engage with and support our community.

Another real highlight has been being **appointed as a Director on the Board of the women's team.** It's been great to become more closely involved with the women's side of the club and to have the opportunity to represent supporters and the Trust at Board level.

I've also organised and promoted a **women's forum for supporters**, (25th November 2026) creating an opportunity for female fans to come together, share their experiences and have their voices heard. It's something I've really enjoyed working on and I'm keen to see how we can continue to develop this.

Supporting our younger fans has been another important part of the year. I've helped arrange **activities in the Junior Grecians area before matches**, giving younger supporters something extra to enjoy as part of their matchday experience.

There's been plenty going on, but it's been really rewarding to get involved in so many different areas. I'm looking forward to continuing the work over the next year and finding even more ways for the Trust to support supporters, the club and the wider community.
