Name:	Julen Beer Ayo
Trustee Since:	2021
Trust Roles:	Communications and Engagement Working Group Member, Club Board Director, Chair of Exeter City Women

Summary of Contributions for 25/26:

Over the last year, my main area of focus at Exeter City has become the Women's team, becoming the club chair in January and re-establishing the women's team's board. With the support and backing of the Supporters' Trust and other supporter groups and initiatives, I have led on the delivery of a purpose-built facility for the Women's team at the Cliff Hill Training Ground, giving the team their own changing facilities, as well as a dedicated space that will meet the needs of the team for many years to come. This has been well received by players and staff alike, allowing the team to go from not having changing facilities after training last season to a smaller, bespoke version of the main training ground building this season.

On the Supporters' Trust Board, as a long-standing member of the Communications and Engagement Working Group, I briefly led the group after the AGM before handing over to the current lead, and I continue to be an active part of the group. I also assisted the Trust Review group earlier this year.
